

INFRASTRUCTURE DEVELOPMENT/CONNECTIVITY

THEMES that came up

- 1. NEED to provide connection beyond T1 connection for privates, tribal colleges AND others. Including Rural SD at affordable rates.**
- 2. Wide spread availability of high definition, high quality video conferencing throughout the state**
- 3. Pool of Applications that would enhance the educational experience.**
- 4. Grow your resources for HPC and computation science, parallel programming PERSONNEL. Personnel and workforce development**
- 5. Storage needs, Disaster Recovery and Backup**
- 6. Tribal colleges – access to IT personnel**
- 7. Small community broadband for medical clinics in the rural communities – telemedicine**
- 8. Get the positive business message out about SD. Don't be afraid to tell our successes. What are SD strengths and what do all these terms mean. Sit down with economic development and chamber rep to communicate with them about technology.**
