

Undergraduate students from throughout South Dakota will present posters on the research they conducted during the summer of 2022 at the ninth annual **SD EPSCoR Undergraduate Research Symposium on Thursday, July 28, at Club 71 on the South Dakota State University campus in Brookings.**

The students will represent most science, technology, engineering and math (STEM) fields. Most of the students have participated in a 10-week research experience and will be presenting a poster proving an overview of their research project.

Local organizations will give a 10-minute overview presentation for students, have lunch with students who are interested in learning more about their organization, and interact one-on-one with students that day.

Participating students have an opportunity to meet with local employers and graduate schools to learn more about the company or school.

## Schedule

### Wednesday, July 27, 2022

- 4:00-6:00 p.m.      Tours at SDSU Labs and Brookings companies (Meet at *SDSU's Research Park: 2301 Research Park Way*) — *Complete poll on which tour you'll attend:*  
<https://xoyondo.com/op/diAsRiSkNsnP17e>
