

Undergraduate students from throughout South Dakota will present posters on the research they conducted during the summer of 2023 at the 10th annual **SD EPSCoR Undergraduate Research Symposium** on **Tuesday, July 25**, at the **Best Western PLUS Ramkota Hotel** (3200 W Maple St) in **Sioux Falls**.

The students will represent science, technology, engineering and math (STEM) fields. Many of the students have participated in a 10-week research experience and will be presenting a poster proving an overview of their research project.

Local companies will give a 7-minute overview presentation for students, have lunch with students who are interested in learning more about their organization, and interact one-on-one with students that day.

Undergraduate students have an opportunity to meet with local employers and graduate schools.
