

BUILDING TEAM SCIENCE

Best practices for building a team of collaborative scientists. This in-person event is for faculty members & Principal Investigators.

March 14 & 15, 2024

The Rushmore Hotel

Rapid City, SD

Agenda (*tentative*)

Training provided by Pips Veazey and Anne Heberger Marino of [UMaine Portland Gateway](#).

Participants: E-Core & E-Rise pending & preparing, faculty, Track 2, and other RFP.

Pre-Workshop:

- Two short readings (TBA)
- Bring a solicitation that includes a team element to the workshop

Workshop: March 14 – Building Team Science

- Introduction to collaborative research development
- Conditions for initiation and developing effective research teams
- Developing trust across large teams
- Developing a common cognitive model of and a shared understanding of collaborative research projects
- Two central events for early success: collaboration planning and conceptual mapping
- Putting team science in operation and building a team from the ground up
- Incorporating team science into your next proposal - resources and activities

Post-Workshop: March 15 – Team Planning Implementation

- Rooms provided for self-directed research team discussions and planning.

Registration Deadline: Friday, March 1, 2024

NOTE: Working lunch and working dinner included on Thursday, March 14. Meals on your own on Friday, March 15. Travel and lodging reimbursements provided by the SD EPSCoR office. Send questions to [Danielle Van Peurse](#) & [Kinchel Doerner](#).
